Date Prepared: April 5, 2018

## Education

2012	M.D.	University of Missouri, Kansas City School of Medicine
2008	B.A.	University of Missouri, Kansas City

## Post-Graduate Training

2016–2018	Northwestern University Feinberg School of Medicine Child and Adolescent Psychiatry Fellowship Program Co-Chief Fellow, 2017–2018
2012–2016	University of California, Los Angeles San Fernando Valley Psychiatry Residency Program Chief Technology Resident, 2015–2016

## Licensure and Certification

### State Licensure

2016–Present	Illinois
2014–Present	California

### American Board of Psychiatry and Neurology Certification

2018 (anticipated)	Child and Adolescent Psychiatry
2016–Present	General Psychiatry

## Honors and Awards

### National

2017	Outstanding Mentor Award American Academy of Child and Adolescent Psychiatry
2017	Educational Outreach Award American Academy of Child and Adolescent Psychiatry
2016	Educational Outreach Award American Academy of Child and Adolescent Psychiatry

## University

2014                      Alex Rogawski Memorial Prize  
UCLA Clinical Faculty Association  
\$2,500 prize for “best original paper relating to psychiatric theory” by a UCLA trainee

## Professional Societies

### National Memberships

2016–Present            National Physicians Alliance  
2014–Present            American Academy of Child and Adolescent Psychiatry  
2010–Present            American Psychiatric Association

### Regional Memberships

2016–Present            Illinois Council of Child and Adolescent Psychiatry  
2016–Present            Illinois Psychiatric Society

### Leadership

2015–2016              Resident/Fellow Representative  
Southern California Psychiatric Society

## Teaching

### Northwestern University Feinberg School of Medicine

Psychiatry Clerkship Lecture Series (“Overview of child psychiatry” lecture for rotating third-year medical students, given monthly from March 2017 to present)

Pediatrics Resident Didactics (“Child psychiatry for pediatricians”, October 2017)

Medical Decision-Making (workshop leader for first-year medical students, Spring 2017)

Otolaryngology Resident and Fellow Didactics (“Treatment considerations for agitation in pediatric presentations”, November 2016; “Emotional and behavioral problems in children and adolescents”, April 2018)

### David Geffen School of Medicine at UCLA

Introduction to Psychiatry Course (“Psychiatric diagnosis,” “Antidepressants” and “Antipsychotics” lectures for rotating third-year medical students at Olive View–UCLA Medical Center; given twice monthly from July 2015 to June 2016)

## Ongoing Research/Educational Projects

### Exploratory study of psychogenic non-epileptic seizures in adolescents

Principal Investigator: Sigita Plioplys, MD

The study aims to compare brain structure and function between adolescents with psychogenic non-epileptic seizures and controls. My role has been to assist in formulating a hypothesis regarding resting-state functional connectivity and to conduct subsequent data analysis.

### Effectiveness of undergraduate medical education in preparing pediatricians to manage psychiatric illness

Principal Investigator: James MacKenzie, DO

The study aims to survey pediatric residents’ exposure to and comfort with managing psychiatric illness. My role has been to assist in developing the survey instrument we used, to facilitate data collection, and to provide mentorship to a medical student working on the project.
